

## Cures Dyspepsia; Trial Is Free

It is a popular mistake that only wealthy people who eat rich and highly-spiced foods suffer from dyspepsia, or, as it is also known, indigestion. The laborer in the street, the worker in the field also finds himself a victim of this disorder. Among the very greatest sufferers from it are women.

Dyspepsia is indicated by a constant feeling of heaviness, by loss of appetite and troubled sleep, by sour stomach and distress after eating, by bad complexion and listless mood.

There is no surer and speedier cure for this trouble than Dr. Caldwell's Syrup Pepsin, which dyspepsia have been using successfully for twenty years. This great herb laxative compound cures constipation, of Buffalo, N. Y., of dyspepsia and sour stomach that he had had for forty years, or until the lucky day that he heard of Dr. Caldwell's Syrup Pepsin. It cured Joel Adams, of Montgomery, Ala., after suffering continuously for sixteen months. These are only a few of the many. But it is not expensive to be cured with this grand remedy, as it can be bought at any drug store in a 50-cent or \$1 bottle.

Your very neighbors are probably life-long users of Dr. Caldwell's Syrup Pepsin, but if you want to know without expense what it will do for you personally, send your name to Dr. Caldwell and he will be glad to send you a free trial bottle. He is actually anxious to have you make a test of his remedy.

Thousands of families everywhere keep it in the house against such an emergency as constipation, sour stomach, indigestion, biliousness, dyspepsia, heartburn, torpid liver, etc., which may come on a member of the family any day. It is pleasant to the taste, acts gently and does not gripe. It is the great children's laxative tonic.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 300 Caldwell Bldg., Monticello, Ill.

**Tuberculosis Being Wiped Out.**

During the year that has passed since the International Congress on Tuberculosis met in Washington, one institution or organization for the treatment of tuberculosis has been established every day. Sundays and holidays included, according to a bulletin of the National Association for the Study and Prevention of Tuberculosis. Fifteen new beds in hospitals or sanatoria have been provided also for every day of the year.

A year ago the rate of increase was one organization or institution every other day; only one half as fast as now. Less than a year ago there were 40 consumptives for every hospital bed provided. To-day the number has been reduced to 30. Nearly 20,000 beds are now provided in institutions for the treatment of consumption, an increase of 5,000

In one branch of anti tuberculosis work, emphasized by the International Congress, a signal advance has been made, that is, in the provision of hospital accommodations for advanced cases. In all parts of the country, state and municipal authorities have been urged to provide hospitals for dangerous cases of tuberculosis, with the result that over 1,000 beds have been established in the past year. At the present time there are, however, only 6,000 beds, and 75,000 advanced cases which ought to be in hospitals. Fully 75,000 others could be treated at home, but it would be safer for community to segregate them in institutions. Every advanced case of tuberculosis is a center from which the disease spreads, and unless the patient is taught to be careful in his habits, and unless he has proper home surroundings, he should be in a hospital, where he will not be a menace to others.

The National Association for the Study and Prevention of Tuberculosis declare there are 75,000 more beds in hospitals needed for advanced cases of consumption. Until these are provided tuberculosis can not be wiped out. If everybody in the United States would give \$5, sufficient funds would be secured to destroy forever the threat of tuberculosis from this country.
